

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

# FOREIGN AND INSULAR.

## BARBADOS.

### BRIDGETOWN—Inspection and Fumigation of Vessels.

Acting Assistant Surgeon Le Sueur reports, July 16:

Week ended July 16. Eight vessels having an aggregate of 262 in crews and 91 passengers were inspected. Of this number 2 were fumigated. The sanitary condition of vessels, cargoes, crews, and passengers was good.

## BRAZIL.

### PARA—Smallpox and Yellow Fever.

Consul Pickerell reports, July 1:

There are a few cases of imported smallpox present. The patients were sent to the isolation hospital and houses were disinfected. The city authorities have begun general vaccination, and to date 6,000 persons have been vaccinated. Yellow fever is endemic, but usually occurs among immigrants who have failed to observe sanitary precautions.
